

54 Letter Actions Die

Upgrade your word game experience! This die can replace the standard die in the Scattergories board game—or be used on its own with the tools below.

Play with the Original Game

Simply replace the standard 20-letter die with this 54 Letter Actions Die and play the game normally. All other rules stay the same—but now each round becomes more creative, varied, and challenging thanks to the many new letter-based actions.

Play Without the Original Game

Use the category lists and timer below to enjoy a complete game experience using only the die.
